The Story of a Medicine.

Its name—"Golden Medical Discovery"—was suggested by one of its most important and valuable ingredients—Golden Seal root.

Nearly forty years ago, Dr. Pierce discovered that he could, by the use of pure, triple-refined glycerine, aided by a certain degree of constantly maintained heat and with the aid of apparatus and appliances designed for that purpose, extract from our most valuable native medicinal roots their curative properties much better than by the use of alcohol, so generally employed. So the now world-famed "Golden Medical Discovery," for the cure of weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness and kindred derangements was first made, as it ever since has been, without a particle of alcohol in its make-up.

A glance at the list of its ingredients, printed on every bottle-wrapper, will show that it is made from the most valuable medicinal roots found growing in our American forests. All these ingredients have received the strongest endorsement from the leading medical authorities, and the system of medicine which it represents has been compiled by Dr. R. V. Pierce, of Buffalo, N. Y., and will be mailed free to any one asking same by postal card, or letter addressed to the Doctor as above.

From these endorsements, copied from standard medical books of all the different schools of practice, it will be found that the ingredients composing the "Golden Medical Discovery" are advised not only for the cure of the above mentioned diseases, but also for the cure of all catarrhal, bronchial and throat affections, accompanied with catarrhal discharges, hoarseness, sore throat, lingering, or hang-on-coughs, and all those wasting affections which if not promptly and properly treated are liable to terminate in consumption. Take Dr. Pierce's Discovery in time and persevere in its use until you give it a fair trial and it is not likely to disappoint. Too much must not be expected of it. It will not perform miracles. It will not cure consumption in its advanced stages. No medicine will. It will cure the affections that lead up to consumption, if taken in time.

DISAPPEARANCE OF LABOR AGENT.

After receiving several Black Hand letters threatening him with death, unless he agreed to pay a certain amount of money, Andes Sparti, an Italian labor agent, with offices in Richmond and in New York, has mysteriously disappeared, and the police can find no trace of him. He is believed to have been killed by members of the society of the Black Hand in New York, whether he went several weeks ago to secure the renewal of his license, leaving his Virginia business in charge of his wife.

Some weeks later, when Mrs. Sparti had not heard from her husband, and her money was nearly exhausted, she also left for New York, since which time nothing has been heard from her. Her friends fear that she has also become a victim of the Black Hand.

In November Sparti brought a number of Italian laborers to Virginia to work in the Arvonita slate quarries. The men went to Richmond, after having worked in the mines for a short time, and charged Sparti with having enticed them South, under false representations. They said that he had promised more pay than they were given and that his description of the work was misleading. Sparti was tried in the Police Court in Richmond, and later in the Hastings Court, and a small fine was imposed. As a result of the trial his New York license was revoked.

Just before his New York license was taken away, Sparti received a letter signed with a black hand, informing him that the society had taken cognizance of his treatment of the laborers, some of whom appear to have been members of the society, and that he would hear from them. A week later he received another letter from the same source, telling him that the society had tried him in its secret court and had sentenced him to contribute a large amount of money to the organization in expiation for his treatment of his fellow-countrymen. Death was the alternative. Sparti defied the society, and his friends believe he has been killed. The police in New York have been asked to investigate the matter.

REDUCTION OF WAGES.

A reduction of 10 per cent. in the wages of all employees of the Southern Railway, except contract labor, such as engineers, firemen, etc., effective March 1, was announced in Atlanta yesterday. A previous cut of 10 per cent. affected general officers of the company.

After an all day conference between officials of the Louisville and Nashville Railroad and a general committee of adjustment, headed by J. D. Keane, general chairman of the Order of Railway Conductors, it was announced in Louisville, Ky., last night that the Louisville and Nashville conductors have agreed to a reduction in wages. The reduction consists of a return to the wages in effect prior to March 1, 1907, and will take effect March 1, 1908.

Officers and subordinates of the New York, New Haven and Hartford Railroad Company, having salaries of \$2,000 and upward are to suffer a reduction of 10 per cent on salaries. Of those that receive salaries between \$1,200 and \$2,000 there will be a reduction of 5 per cent. It is understood that these reductions will begin on March 1. The total savings on all the reductions will be about \$125,000 a year.

The general manager of the Norfolk and Western Railway Company has addressed a circular letter to the chairmen of the various labor organizations on that system proposing a reduction in the wages of all employees in the different departments. It is said that the company desires to make a reduction on a sliding scale, with the understanding that when the revenues of the road reach \$2,500,000 per month the wages are to be restored. It is stated that the revenue of the road before the present depression was seldom below \$2,500,000, and that it has reached \$3,000,000 a month. By an overwhelming majority telegraph operators on the Northern Pacific have rejected the proposition made by the road in regard to a new schedule of hours and wages, to become effective on March 4, when the "hours of service law" goes into effect.
